

Numa River, Kourui River, and Takahashi River Flood Hazard Map

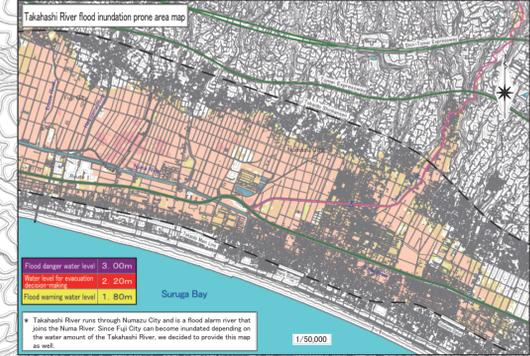

Legend (Areas prone to flood inundation)

[Red]	5.0 m to below 10.0 m
[Orange]	3.0 m to below 5.0 m
[Yellow]	1.0 m to below 3.0 m
[Light Yellow]	0.5 m to below 1.0 m
[White]	Below 0.5 m

House collapse danger zone
 (Flood flow, bank erosion)
 Area where houses may be washed away or collapse in the event of a flood.

* Please note that a house collapse danger zone is just a guide since the boundaries are not clearly demarcated because of differences in terms of house structure and strength properties.

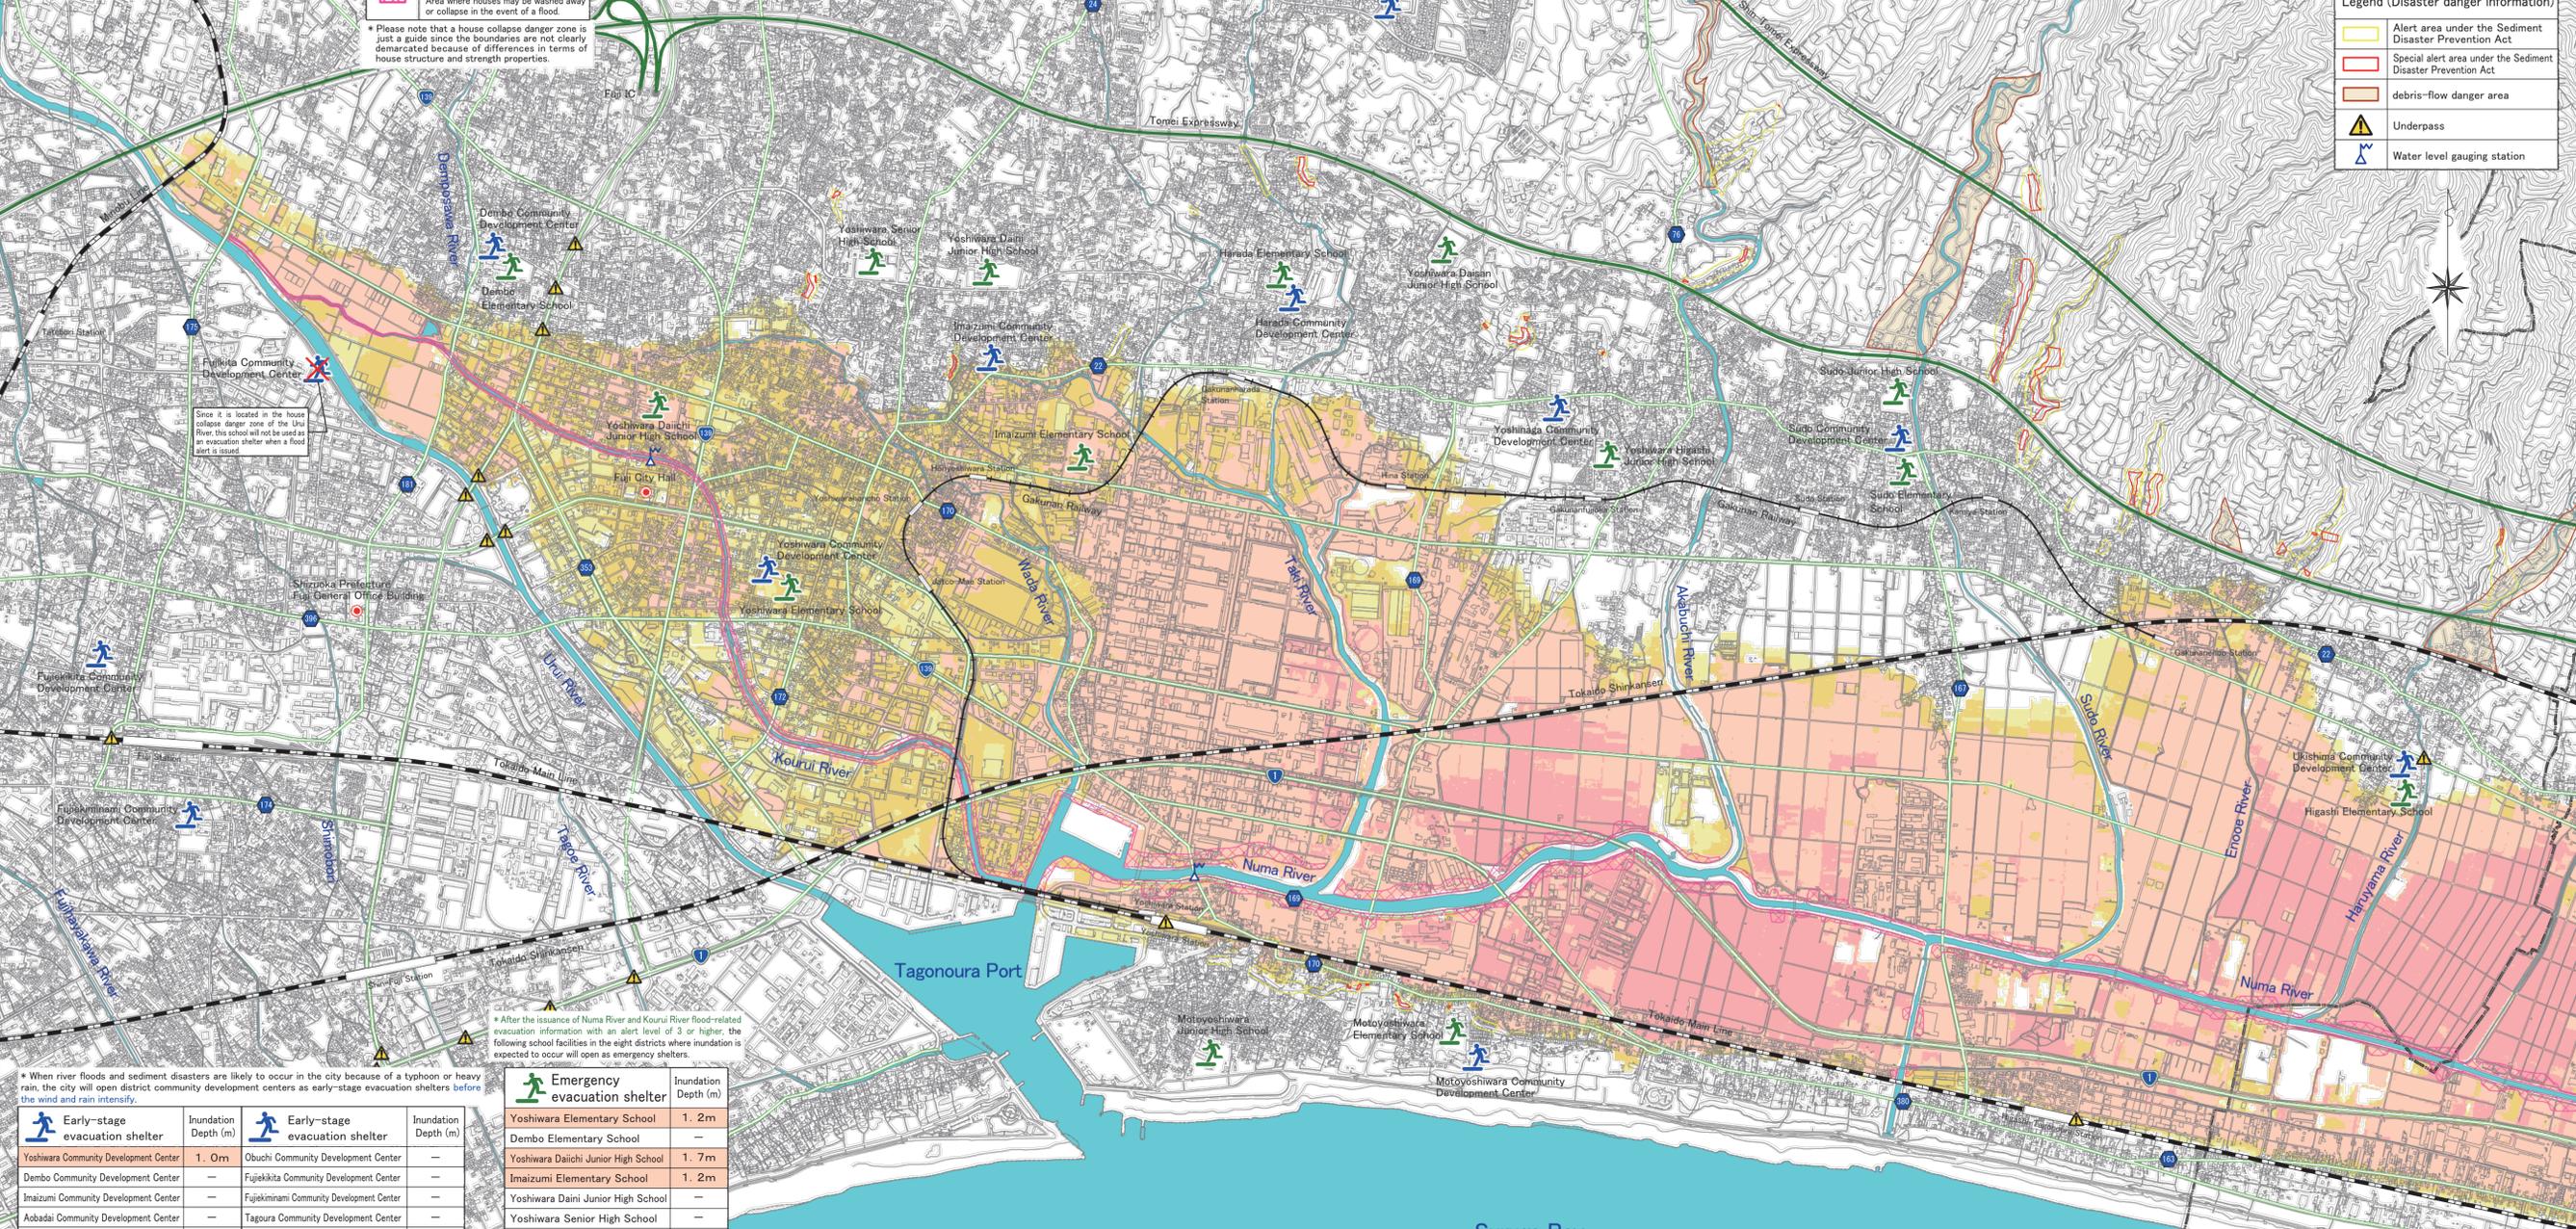

Legend (evacuation shelters and other)

- [Blue person icon] Early-stage evacuation shelter
- [Green person icon] Emergency evacuation shelter
- [Red X icon] * Note * Early-stage evacuation shelters that will not be open
- [Blue car icon] Ittoki (temporary) vehicle shelter in the event of a flood
- [Red circle icon] City Hall, General Office Building
- [Green line icon] Tomei Expressway & Shin-Tomei Expressway
- [Blue shield icon] National road
- [Blue circle icon] Prefectural road and main city road
- [Black line icon] Railway (JR)
- [Black dashed line icon] Gakunan Railway

Legend (Disaster danger information)

- [Yellow box icon] Alert area under the Sediment Disaster Prevention Act
- [Red box icon] Special alert area under the Sediment Disaster Prevention Act
- [Orange box icon] debris-flow danger area
- [Yellow triangle icon] Underpass
- [Blue gauge icon] Water level gauging station

* When river floods and sediment disasters are likely to occur in the city because of a typhoon or heavy rain, the city will open district community development centers as early-stage evacuation shelters before the wind and rain intensify.

Early-stage evacuation shelter	Inundation Depth (m)	Early-stage shelter	Inundation Depth (m)
Yoshiwara Community Development Center	1.0m	Obuchi Community Development Center	-
Dembo Community Development Center	-	Fujikita Community Development Center	-
Imazu Community Development Center	-	Fujikimami Community Development Center	-
Abadaki Community Development Center	-	Tagoura Community Development Center	-
Yoshinaga Community Development Center	-	Fujinami Community Development Center	-
Motoyoshiwara Community Development Center	-	Iwatsakita Community Development Center	-
Sudo Community Development Center	-	Fujikawa Community Development Center	-
Ukishima Community Development Center	-	Matsuno Community Development Center	-
Harada Community Development Center	-	Takaoka Community Development Center	-

Godo Community Development Center	-	Temma Community Development Center	-
Yoshinagata Community Development Center	-	Oka Community Development Center	-

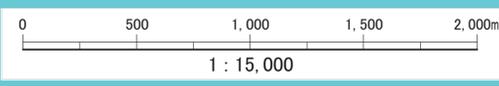

* After the issuance of Numa River and Kourui River flood-related evacuation information with an alert level of 3 or higher, the following school facilities in the eight districts where inundation is expected to occur will open as emergency shelters.

Emergency evacuation shelter	Inundation Depth (m)
Yoshiwara Elementary School	1.2m
Dembo Elementary School	-
Yoshiwara Daiichi Junior High School	1.7m
Imazu Elementary School	1.2m
Yoshiwara Daini Junior High School	-
Yoshiwara Senior High School	-
Yoshiwara Higashi Junior High School	-
Motoyoshiwara Elementary School	-
Motoyoshiwara Junior High School	-
Sudo Elementary School	-
Sudo Junior High School	-
Higashi Elementary School	-
Harada Elementary School	-
Yoshiwara Daisan Junior High School	-

* After flood-related evacuation information for alert level 3 or higher is issued, the city will open the ittoki vehicle shelters in the event of a flood.

Ittoki (temporary) vehicle shelter in the event of a flood

Parking area at Fujinishi Park
 Parking area A at Fuji City General Sports Park
 Parking area to the east of Fuji Shinkin Bank Training Center

How to use the map

1. Look for your house, school, and place of work and mark them.
2. Confirm the dangers associated with a flood through the legend.

House collapse danger zone Inside/Outside (Legend) [Pink box]

Sediment disaster alert area Inside/Outside (Legend) [Yellow box]

Inundation depth m to m (Legend) [Color gradient]

Advance to Step 1 to Step 3 on the reverse side and complete My Timeline for heavy rain.
