

COVID-19 vaccination venues and days will be reduced

It is expected that the second dose of COVID-19 vaccination for 80 % or more of Fuji City citizens will be completed by early November and the number of reservations is decreasing now.

For this reason, as for the current vaccination venues, the number of venues and days for vaccination are going to be reduced. Please make a reservation for the first dose by October 30th.

If you are able to get vaccinated, please consider doing so as soon as possible. That will also protect people around you who you care about.

The vaccination is not compulsory. It is done with the consent of the individual with understanding both effectiveness in preventing the infectious disease and risks of post-vaccination adverse reactions.

〈Notice〉

- If your reservation time is 19 : 00 ~ 19 : 30,
the reception time is 18 : 45 ~ 19 : 15.
Please be careful about your visiting time.
- Please fill out the pre-vaccination screening
questionnaire in advance.
- Please be sure to wear a mask in the vaccination venue.
